

Basketball Training Sessions

Basketball Training Sessions are Here!

Hancock Wellness Center is hosting multi-day basketball training sessions for players from first grade on up. Each group is led by Coach Harvey Harrington.

He has coached boys basketball at Westfield & Heritage Christian, & girls at North Central. He led the North Central girls team to a State Championship in 2012.

Training sessions will focus on a variety of basketball skills, including ball handling, shooting technique, breakdown of game lessons and defensive/offensive strategies. Individual goals will be discussed and incorporated in to training sessions.
